DIARY NOTES

LKW 

18 June 1965

1. Mr. Kirkpatrick buzzed to say that he planned to resign from the Board of the Fairfax County Hospital and that he would like to nominate someone from the Agency to take his place since so many Agency employees use the hospital. He wondered if Bob Bannerman would be willing to do this. I said that, while Bob would certainly be a fine Board member, I thought Kirk should not nominate Bob without first discussing it with him. In addition, I understand that the Board takes quite a bit of one's time, and Bob will be carrying a very heavy load for the next few months at least. I told Kirk that I would tell Bob about this and that he could discuss it with Bob after his return on 28 June.

2. I attended a briefing this morning on Project CHIVE. This project will require approximately fifty people and a substantial financial outlay. Mr. Kirkpatrick asked the Office of Central Reference to do some work on how they could get these people quickly in order to get started with the project. A very big management decision will be needed, and undoubtedly it will fall into my lap. In this connection, Kirk suggested that such a briefing be given about once a month. It was evident to me that I need a thorough briefing on Project CHIVE to be brought up to date on where the project stands.
